Vision and Mission Statements of the KLE Technological University

Vision

KLE Technological University will be a national leader in Higher Education –recognised globally for innovative culture, outstanding student experience, research excellence and social impact.

Mission

KLE Technological University is dedicated to teaching that meets highest standards of excellence, generation and application of new knowledge through research and creative endeavours.

The three-fold mission of the University is:

- To offer undergraduate and post-graduate programs with engaged and experiential learning environment enriched by high quality instruction that prepares students to succeed in their lives and professional careers.
- To enable and grow disciplinary and inter-disciplinary areas of research that build on present strengths and future opportunities aligning with areas of national strategic importance and priority.
- To actively engage in the Socio-economic development of the region by contributing our expertise, experience and leadership, to enhance competitiveness and quality of life.

As a unified community of faculty, staff and students, we work together with the spirit of collaboration and partnership to accomplish our mission.

Vision and Mission Statements of the Department/School

Vision

A business school of national repute by achieving excellence through teaching–learning, research and impacting society

Mission

To impart quality management education that caters to socio-economic development of the region

To provide scholarly learning environment that enables students and staff to achieve personal and professional growth

To contribute to the body of knowledge in management science

To positively impact the society by upholding the values of KLE Society

Consolidated View of Program Educational Objectives (PEOs) /Program Outcomes (POs) and Program-Specific Objectives (PSOs)

<i>Program Educational Objectives -PEO's</i>
PEO:1. Apply management concepts and frame works to make effective decisions in complex situations.
PEO:2. Apply appropriate quantitative and qualitative techniques in solving business problems
PEO:3. Acquire the ability to engage in independent and life -long learning in the context of professional and community
